ABOUT ME

I am a front end web developer with a passion for creating work of excellence. After gaining five years of valuable experience in employee and program management, I am transitioning into a best-fit career in tech where I am utilizing my creativity and problem-solving skills. My goal is to be a leader in my field by speaking at meetups and events and focusing on how to write clean and efficient code.

SKILLS

JavaScript

React

HTML

CSS

Git & Github

JQuery

Responsive Web Design

Firebase

Command Line

Adobe Illustrator

Adobe Premiere

EDUCATION

CERTIFICATE
Front End Engineering
The Iron Yard
2016

MASTER'S DEGREE
Counseling Psychology
Palm Beach Atlantic University
2014 - 2015

BACHELOR'S DEGREE
Sports and Fitness
University of Central Florida
2007 - 2010

EXPERIENCE

THE IRON YARD
Front End Engineering Student
7/2016 - 10/2016

At The Iron Yard, I participated in a 12-week coding bootcamp in which I learned how to problem solve using JavaScript for both individual and team projects. After a 3-week long final project, I graduated with a strong core front end programming skillset. Key accomplishments from this experience include:

- studying and implementing JavaScript concepts such as types, functions, objects, scope, closures, constructors, prototypes and more
- building over 35 projects including a full web application using Firebase
- learning how to build an application with React
- creating user-friendly and responsive layouts for mobile and tablet views
- incorporating additional tools such as CSS preprocessors, JavaScript libraries, and testing frameworks

THE CHRIST SCHOOL
REACH and Summer in the City Coordinator
10/2011 - 7/16

At The Christ School, I interviewed and hired, trained, and led a team of 12-20 employees in the after-school and summer programs. I communicated with families regarding program contracts, monitored the safety and security of the student environment, and handled student and employee issues. Key accomplishments from this experience include:

- increasing program registration and revenue
- expanding summer program offerings
- transitioning student check-in and check-out to an electronic system for better campus security
- introducing and implementing tools and procedures for enhanced team communication
- working with team leadership to better communicate program branding and mission statements to school families
